

**Iowa Return to Community Progress Report  
 September 12, 2019**

**Overview of FY19**

- Iowa Return to Community (IRTC) completed its first year. Began July 1, 2018 in three Counties: Pottawattamie, Cass, and Mills. Woodbury County joined later in October.
- Service delivery started simultaneously with implementation due to high consumer interest prior to full implementation of program. The services are intensive in nature and involve case screening, planning and coordination in conjunction with actual service delivery and average around 31 days of service per consumer. Caseloads fluctuate between 25 – 30 consumers at a time depending on level of need. Implementation activities included:
  - Infrastructure and staffing development in each of the four pilot counties
  - Development of standardized protocols and tools
  - Determination of data collection methodologies and;
  - Establishment of baseline data

**Outcomes Overview**

<b>Stakeholder Engagement (Community Conversations)</b>	20	
<b>Locations:</b> Cass, Mills, Pottawattamie, Woodbury		
<b>Participants:</b> Hospitals, Skilled Nursing Facilities, Discharge Planners
