SFY 2021 Update to Area Plan on Aging SFY 2018-2021 Instructions

Area Agencies on Aging (AAAs) must submit their SFY 2021 Update to their approved SFY 2018-2021 Area Plan on Aging per these instructions. AAAs should craft their plan update with their large stakeholder audience in mind.

Each agency must submit a one-year budget. Instructions for submitting the area plan budget are detailed in the SFY 2021 Area Plan Budget Report Instructions, which will be issued separately.

The SFY 2021 Update to the SFY 2018-2021 Area Plan on Aging and the SFY 2021 Area Plan Budget Report are due on April 1, 2020.

Update Overview

The instructions for the SFY 2021 Update to the SFY 2018-2021 Area Plan on Aging assume that all AAAs are updating their approved area plan - not amending them. As of the issuance date of these instructions, IDA is not aware of a condition requiring an area plan amendment. Each AAA, however, should review the conditions requiring an amendment and determine whether they have planned activities or changes that would warrant an amendment to their approved SFY 2018-2021 Area Plan on Aging.

Per IAC 17- 6.2(6)a, the AAA shall amend the area plan and submit it to the commission for approval when:

1. A new or amended state or federal statute, rule or regulation requires new information or conflicts with any existing plan provisions;
2. A United States Supreme Court decision changes the interpretation of a statute or rule;
3. Local law, organization, policy or agency operations change and are no longer accurately reflected in the area plan;
4. The department requires amendments;
5. The grantee proposes to change the designation of the single organizational unit or component unit responsible for programs under the federal Act or state law; or
6. The area agency proposes to add or delete a service category.
Completing the Area Plan Template

Complete the SFY 2021 Update for SFY 2018-2021 Area Plan on Aging Template.docx to provide the required plan update information. The document has not been protected. Replace text included in [brackets] with your plan information. All other text must remain in the document.

Do not change the margins or font size. You may alter the document to ensure readability, such as adding white space, inserting page or line breaks, using bulleted or numbered lists, etc. Please carefully proofread and edit the document before final submission.

Table of Contents

Instructions: Once you have completed your plan, the last step is to update your table of contents. To update the table of contents, right-click the cursor in the table. Choose Update Field and then choose Update Entire Table.

Tip: If you see a “Bookmark Not Defined” message instead of a page number, then you have inadvertently removed the heading style from the text. To resolve, go to the text and select it. Then, choose the appropriate Heading style (Heading 1, Heading 2 or Heading 3).

Update Summary

Instructions: The Update Summary should provide an overview of accomplishments, initiatives, or changes that have occurred at the agency since the submission and approval of its SFY 2020 Update to the 2018 - 2021 Area Plan on Aging. The Update Summary should also preview activities, initiatives, or events planned for SFY 2021.

- Progress to Date:
  - Changes related to service delivery, staffing, and/or priorities that impact the implementation of the area plan (if any).
  - Accomplishments/Results to Date.
  - New, Unexpected Challenges.
  - Rationale for modifications to service gaps (if any).
- Planned for SFY 2021:
  - Briefly describe major initiatives, activities, or events planned for SFY 2021 to address identified service gap.

Agencies may include any information pertinent to educate stakeholders on activities or issues impacting service delivery, the plan, agency, or PSA customers. Limit your update summary to two (2) pages.
Section 1: Update on Strategies to Achieve 2018-2021 Goals

Instructions: For each goal, provide information on prioritized service gaps as instructed below.

Prioritized Service Gaps

Instructions: Copy and insert the summary of activities completed to identify and prioritize service gaps from your agency’s approved plan. If new assessment activities have occurred that resulted in changes to prioritized service gaps, describe those activities here and why the new service gap was deemed to be a higher priority than the previously identified service gap. Agency may add service gaps or replace service gaps; however, agency must explain how the decision was made to add or replace and why.

Important! Changing several of the prioritized service gaps in the approved plan may warrant a plan amendment. Consult with IDA staff if significant changes to the approved plan will occur.

Strategies to Address Service Gaps

Instructions: Agency must provide information for all service gaps in the approved area plan.

Service Gap: Is agency retaining service gap?
   a. If yes, copy and insert the service gap from your approved plan.
   b. If no, then insert new service gap.
      i. Be sure that you have indicated in the Prioritized Service Gaps section why you changed your service gap(s).

Indicators to gauge progress in addressing service gap: List indicators agency is using to evaluate progress on addressing the identified service gap. Indicators may be a combination of qualitative and quantitative items.

Strategies to Address Service Gap: In the table provided, copy and insert each strategy from your approved plan into each row under the Current Strategies column. Agency may choose to add, revise, or remove strategies. If you are changing a strategy, discuss the strategy change in the Strategy Activities to Date section. Insert “Yes” or “No” to indicate whether the strategy is a revised or new strategy. Insert the status of the strategy: Not Started, In Progress, Stalled, or Completed.

**Strategy Activities to Date:** Use this section to provide an update on activities being undertaken to implement strategies.

For strategies in progress or completed, agency should summarize activities that have occurred or will occur the current fiscal year (SFY 2020). For strategies not started or stalled, agency should address causes.

Be clear and specific enough in your update for a general audience to evaluate whether agency is pursuing the strategies effectively. The update should incorporate the indicators agency is using to evaluate progress. *Agency may include highlights and unexpected challenges.*

Length of response will be dictated by agency’s activities to date. Information here will be used to evaluate agency progress on area plan activities and on addressing identified service gaps.

**Strategy Activities Planned for SFY 2021.** List the strategy activities agency plans to pursue in SFY 2021.

Be clear and specific enough for a general audience to evaluate whether agency is pursuing the strategies effectively.

Information here will be used to evaluate agency’s plan to implement area plan strategies and address identified service gaps.
EXAMPLE

SERVICE GAP #1: EAPA services are not currently reaching older Iowans experiencing or at risk for experiencing abuse at the desired level.

Indicators to gauge progress in addressing service gap
Agency is reviewing these indicators to determine whether progress is being made in addressing the service gap:

- Number of EAPA consumers served by service
- EAPA referrals by county
- EAPA consumers by county
- EAPA consumer cases open/closed
- Partnerships Established

Update on Strategy Activities to Date
Agency is currently doing these activities in support of these strategies. We have begun to see these results (e.g. more referrals from targeted counties) coming out of these activities. We have also progressed by doing these things. We have also experienced these other successes.

Activities on these strategies have not yet started because of these reasons. These strategies are stalled because of these reasons. Here are some things that came up that we did not expect.

Agency determined that initial strategy would not address the service gap because of these initial results (e.g. partnerships changed).

Instead, we will be pursuing this strategy. Here’s why we believe this new strategy will address the service gap.

Strategy Activities Planned for SFY 2021
Agency plans to implement these activities in SFY 2021. This activity will involve these groups or these events. That activity will result in contact with this type of consumer. We expect these activities will result in this change.

We plan to continue work on these activities by doing these things. We expect to accomplish these results by the end of SFY 2021.
Section 2: Performance and Service Projections

Performance Measures & Fiscal Year Target

Instructions: For each measure listed, agency must:

1. Insert the SFY 2018 & 2019 Actual result for the measure.
2. Insert the SFY 2020 Target from approved area plan update.
3. Insert results to date, on the performance measure (insert the date the result was obtained.)
   a. Targets should be reasonable, achievable, and set a high standard for consumer outcome.
   b. Make sure performance targets are included and close to data results from the previous year.
5. Provide a one paragraph description of activities impacting performance on measure. If target for SFY 2021 has increased or decreased by 10%, indicate the reason for the change.

Note: For the nutrition counseling target, be sure to enter the consumer target in both a percentage and number. If the nutrition counseling consumer numbers have traditionally been low a small change can result in a large percentage change.

SFY 2021 Projected Older Americans Act Consumers and Service Units

Instructions: Prepare to provide SFY 2021 projections for the total number of consumers to be served, number of consumers served by targeted populations, and total service units. Instructions for submitting SFY 2021 projections will be issued in the forthcoming SFY 2021 Area Plan Budget Report Instructions document.

When preparing projections, consult chapter 2 of the Area Agency on Aging Reporting Manual for a listing of allowable services and service definitions. Agency’s should also utilize Iowa aging demographic data and past service units provided & consumer served when determining projections for SFY 2021. Population estimates targeted demographic groups are available under Resources: at https://www.iowaaging.gov/area-agencies-aging/aaa-professionals/area-plan-aging-guidance.
Self-Directed Service Delivery

Instructions: **Self-Directed Service Delivery is not required at this time. If AAA wishes to provide, the following guidance is available.**

Self-Direction means: An approach to providing services (including programs, benefits, supports, and technology) under the OAA intended to assist an individual with activities of daily living, in which—(A) such services (including the amount, duration, scope, provider, and location of such services) are planned, budgeted, and purchased under the direction and control of such individual; (B) such individual is provided with such information and assistance as are necessary and appropriate to enable such individual to make informed decisions about the individual's care options; (C) the needs, capabilities, and preferences of such individual with respect to such services, and such individual's ability to direct and control the individual's receipt of such services, are assessed by the area agency on aging (or other agency designated by the area agency on aging) involved; (D) based on the assessment made under subparagraph (C), the area agency on aging (or other agency designated by the area agency on aging) develops together with such individual and the individual's family, caregiver or legal representative—(i) a plan of services for such individual that specifies which services such individual will be responsible for directing; (ii) a determination of the role of family members (and others whose participation is sought by such individual) in providing services under such plan; and (iii) a budget for such services; and (E) the area agency on aging or State agency provides for oversight of such individual's self-directed receipt of services, including steps to ensure the quality of services provided and the appropriate use of funds under the OAA. (Source: OAA)

If AAA utilizes a self-direction service delivery approach for older adults and caregivers to obtain services funded in whole or part by Title III B or E of the OAA, agency must complete the table below and insert the table into the area plan update template. AAA will provide a report on actuals for this service delivery approach at the end of the SFY and FFY.

Caregiver Respite Voucher Service Delivery

Instructions: Review the definition of Respite Voucher below.

Respite Voucher means: A payment mechanism for caregiver respite services. A voucher is a document that shows respite services have been bought or respite services have been rendered, and authorizes payment.

If AAA utilizes a voucher method for caregivers to obtain respite services funded in whole or part by Title III E of the OAA, agency must complete the table below and insert the table into the area plan update template. AAA will provide a report on actuals for this service delivery approach at the end of the SFY and FFY.
