

Ilo M.

About her family.

Ilo was married to World War II vet Delbert and together they had two daughters (Darla and Wendy). She has two grandsons that are her pride and joy!

The secret to her longevity and her favorite things.

She has lived through many events - The Great Depression, World Wars, tornadoes, floods, injury. Throughout all these events she had the attitude of 'it happened, how do we move on?...'. Ilo does not spend time on what-ifs or regrets. Instead she stayed curious and interested in the world and learning more. In her room she has a world map and when she learns of a new place she will find it on the map - this has kept her mind sharp! She enjoys quilting, crossword puzzles, word games, cards, reading and scrabble.

Her most amazing event.

She would say loving her husband and family is what she cherishes most. She traveled to Europe twice and served 30+ years as Clerk for her small town.
